

Suggested Guidelines for Wrestling Tournament Directors

The goal of every tournament director should be to run a safe and efficient event. While these guidelines are only suggestions, we feel they will help you to achieve these goals.

The following is a list of suggested guidelines for tournament directors to help facilitate wrestling tournaments.

These guidelines were compiled and presented to the OF Wrestling Advisory Committee at the February 28, 2002 meeting. It is the intent of these suggestions to help tournament directors conduct tournaments which do not cause wrestlers, coaches, parents, and fans to return home late at night and then have them arrive early the next morning. This is particular-

ly important during two-day tournaments. Again, these are only suggestions, but the advisory committee would encourage you to consider these recommendations in the best interest of wrestling.

1. Limiting the Number of Teams
