

Noble High School, Maine

By Bob McPhee

Maine State Editor

Each time an individual steps on a wrestling mat, the major objective will be on winning the match because that's the goal.

It's necessary to set, strive for and obtain numerous goals throughout a career.

It's even more remarkable when a pro-

gram is able to stand above the others and that's exactly how the Noble High School program is perceived in the state of Maine. The Knights have established a dynasty of sorts by continued wins on a consistent basis, as evidenced by nailing down the last five Class A state championships. Despite the overwhelming success, the

Noble program is certainly not resting on its laurels. The driving force still is to provide every one of the student-athletes with the best opportunity to succeed in the world's oldest sport. There are numerous factors involved toward achieving such a task. First off each wrestler needs to be dedicated and be willing to work hard.
