

Below is my most recent article about my experience being an extra in the up and coming movie American Fighter (I also did Q&As with seven other California wrestlers that were extras in the movie). This is the sequel to American Wrestler - The Wizard. The producer of this movie is Ali Afshar. Ali was a 1991 CIF State Qualifier for Casa Grande High School in the North Coast Section...he's truly an ambassador to our sport.

His first movie, American Wrestler-The Wizard was released to theaters in early May for only a few days. It's a very good story based on true events in his life and family. I've been told that the movie has just been released on DVD and can be purchased at Walmart or Amazon.com. I really enjoyed the movie and believe the story line reaches out to more than just the wrestling community (a feel good story...the hero).

My "American Fighter" Experience - The Connection of the California Wrestling Community
